

# NetStores® E-Commerce Application Training

## The NEAT Program

*Add easy e-commerce to your web design curriculum*

**Finally, e-commerce that works with the application that you're teaching!**

The NetStores® E-Commerce Application Training program (NEAT) gives instructors all the tools they need to teach easy e-commerce. Drag-and-drop shopping cart tools put students on the cutting edge of e-commerce with no programming skills required to get started. Online stores can be set up and ready to sell in minutes, and students can experiment with the full-featured functionality of the software to fully customize the ordering process.

*Strengthen your curriculum* with technology created by an established e-commerce provider.

*Save your class time* with the simplicity of drag-and-drop shopping cart tools that work with Macromedia® Dreamweaver®, Adobe® GoLive® and Microsoft® FrontPage®.

*Save yourself time* by using our detailed turnkey course materials.

*Get help when you need it* with our superior technical support and personalized service.

*Provide practical, real-world training* for technical schools, community colleges, and universities.

*Step-by-step modules* for easy incorporation into existing curriculum.
